Please note: Target grades are no longer given to GCSE students. Instead they all have a target grade of '7-9'. The decision was research driven, based on the impact target grades can have on attainment. The headline figure for Year 11 mock examinations is 79.3% Grades 7 - 9, this is a slight decrease from last academic year where the headline was 82.4. As in previous years, an intervention programme is in place targetting subjects and students to support and raise attainment. A second round of formal mocks have taken place for English and Mathematics, all other subjects will be running in class assessments so that students can access important feedback. Subjects highlighted are being supported.
