Please note: We have provided two sets of target grades. One from the Fisher Family Trust which uses external data to calcuate a predicted A Level outcome; the other target grade is generated by teaching colleauges who use their internal data to predict an A Level end of course outcome. The headline figure for Year 13 mocks is slightly down from 2023 (2023 - 78.7% A* - B), however, this is a difference of only 3.7%. This year we saw a greater increse in the disruption of the mock examinations due to interviews. As in previous years, an intervention programme is in place targetting subjects and students to support and raise attainment. Mock resits are scheduled, in the past these have made a significant impact on attainment. Subjects highlighted are being supported.
