*If you choose Further Maths in the fifth column, you must choose Maths in one of the first four columns.

Please enter your reserve A Level choices here:

1	
2	

Please see the A Level Subject booklet for GCSE grades required for each subject.

Please be aware that the viability of all courses is dependent on student numbers.

All students follow a programme of Physical Education activities and complete Community Service

The normal expectation is that students will choose 4 A Levels with the possible addition of a 5th subject as this allows for maximum flexibility in their curriculum.

However, we are prepared to consider departures from this and will address requests for these at Options Discussions in Jan 2017.
