Inspiring the leaders of tomorrow to think for themselves and act for others

MESSAGE FROM MR LAWLOR

Congratulations to our students for all their achievements and efforts during our Sports Day on Tuesday. Thank you to the school staff who supervised events and competed in the famous staff vs students relay (and won!). Particular thanks to all the parents who were able to come and support their daughters - it really added to the sense of occasion.

Throughout the week, we celebrated the arts in our school, including a display of KS3 and GCSE Artwork in the foyer of the Anstee building, with musical and dance performances at lunchtime outside the Bancroft building. And of course, we held our Cabaret Concert on Thursday evening – many congratulations to our student musicians.

We enjoyed a wonderful afternoon today, with our Flower Fest event, organised by our Senior Prefects. This event provided opportunities for students to listen to live music, watch dance performances, and participate in activities, all in the service of raising awareness of and funds for the British Red Cross (BRC). We were delighted to welcome representatives from the BRC to our school this afternoon.

Expedition Saturday 9th - Sunday 10th July

Year 8 Enrichment Arts Day
Monday 11th July

A-Level Geography residential
Monday 11th July - Friday 15th July

Tuesday 19th July Last day of term
School ends at 13:00

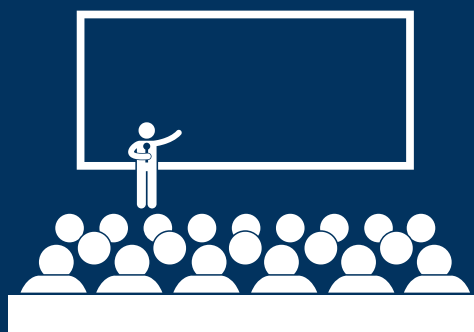

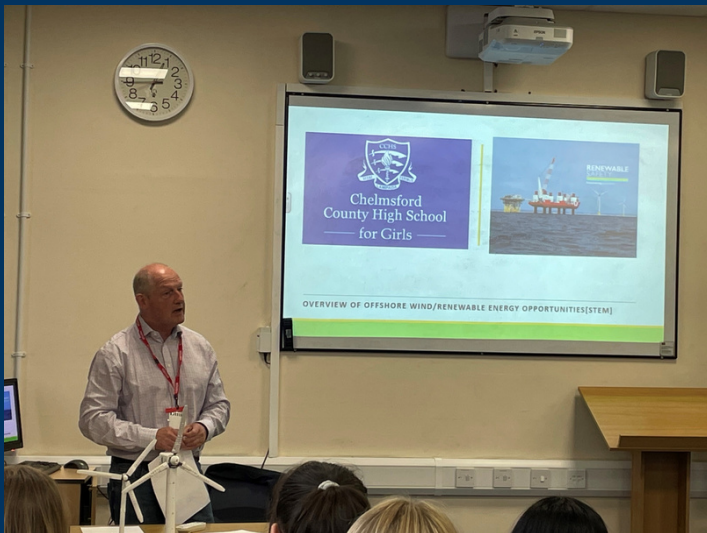

Renewable Energy- Technology & Opportunities

A talk by Chris Streatfeild

On Wednesday, Chris Streatfeild (STEM ambassador) gave a lecture on 'Renewable Energy- Technology & Opportunities'. Chris provided a multitude of insightful pieces of information regarding the future of renewable energy as a source of power and more specifically the use of offshore wind in the movement to end the global reliance on fossil fuels and other non-renewable sources of energy.

Chris also discussed the growing demand for women in the offshore wind industry (including women with backgrounds in business and construction!). We are highly appreciative of Chris for taking the time out of his day to highlight the importance of making offshore wind a more prevalent form of energy generation to combat the climate crisis.

Erika (12RTH)

V&A

Last Friday the Art Department took a trip with Year 10 GCSE students to The Victoria and Albert Museum in London.

Students were able to immerse themselves in work by famous artists such as Rodin, William Morris and Vivienne Westwood. Spending the day exploring the gallery allowed our students to study art pieces and carry out activities including drawing, painting and critical writing which supports their GCSE course.

YEAR 7 STUBBERS TRIP

The Year 7 trip to Stubbers Adventure Centre last Friday was brilliant. Students got stuck in to activities that saw them step outside their comfort zone and face their fears but most importantly they ended the day with huge smiles on their faces and memories that will last forever.

Well done Year 7!!
