

CCHS *Laudatio*

16th September 2022

Dear CCHS community,

We would like to encourage you to contribute to a book of condolence/reflections as a mark of memory and respect on the occasion of the passing away of Her Majesty Queen Elizabeth II.

Students and members of staff are able to visit the Prayer Room (room A5b) to write their comments in the book, at breaktime or lunch time.

We also invite parents, governors and members of the alumnae to email their comments to QueenElizabeth@cchs.co.uk - we will then ensure that these contributions are added to the book.

I would like to thank you, in advance, for supporting our community effort at this important moment in the life and history of our country. I do think there is an added significance for us, as a long-established girls' school community, as we pay our collective respects to our late female monarch who has played such an important role in our national story for seven decades.

Thank you,
Mr Lawlor

MESSAGE FROM MR LAWLOR

On Saturday last, Mrs Carroll and I had the pleasure to welcome members of the CCHS Alumnae for a visit to their school. The former students graduated from CCHS between 1975-1982. It was absolutely wonderful to spend time with them and allow them to tour their school to see the new buildings, and enable them to hear the news about how the school has grown and developed over the years. We are always keen to hear from members of the CCHS Alumnae. Please do get in touch with us to learn more, and particularly to arrange a visit to your school – you will always be warmly welcomed back.

Alumnae - Chelmsford County High School for Girls (cchs.co.uk).

ARTIST OF THE
WEEK- Kavya in
Year 11 for this
visually exciting
pencil drawing.

Student Achievements

Have you got some news to share?
If so, please email Mrs Gross (jgross@cchs.co.uk) and attach a photo or logo, if applicable.

Iris (10H) met Her Majesty The Queen at the Commonwealth Service in 2019. It was a great honour for Iris and her Cubs group to participate at such an event.

Sophie (9A) competed in the English closed Judo competition and achieved a silver medal in the under 48kg category. She was also selected to be part of the England development squad and will now be able to train with the best judoka from across Britain.

*WELL
Done*

If so, please email Mrs Gross (jgross@cchs.c)
photo or logo, if applicable.

Niya (10F) has graduated as an Industrial Cadet at Silver level through completing the EDT experience virtual route into STEM during the school holidays.

Niya has also been awarded Runner-Up in the Indian Classical Dance Bursary for the UK. Imperial Society of Teachers of Dancing. (ISTD)

CCHS Parents' Association

Email: pa@cchs.essex.sch.uk

We have the New Parents' Welcome Evening coming very soon and the Parents' Association needs your help to introduce the PA to new parents.

To give them a brief overview of who we are and what we do as well as asking if any would like to become helpers themselves. Catherine and Niki are attending already. We just need a further 5 helpers to meet each form.

Event details are as follows:-

Date Thursday 22 September

Timing – Parents arrival 6.45pm. PA to meet form groups at 8.20pm.

Parents will leave 8.45pm

The School gates will be closed at 6.30pm so if you require parking please arrive before this.

Please let me know by return if you are able to help out at this event.

Cool and unruly: how disordered materials could refrigerate the world

An IOP / CSES lecture for the public, presented by
Dr Anthony Phillips, Queen Mary University of London

Thursday 22nd September 2022, starting at 7pm
Refreshments available before the talk from 6.30pm

Which molecular shapes encourage disordered structures the best?

It is well known that the beautiful facets of crystals are a consequence of the regular geometric arrangement of the atoms and molecules from which they are formed. But real crystalline materials can deviate substantially from these mathematically perfect arrangements, accommodating surprising levels of structural disorder. This isn't just a curiosity, but leads directly to applications ranging from solid-state refrigeration to switchable dielectrics. I will present ways to measure this disorder, and show how and why we might want deliberately to introduce it.

Location : MAB221 in Ashcroft Building, Anglia Ruskin University,
Bishop Hall Lane, Chelmsford CM1 1SQ

Attendance is free and open to all – no reservation required
