

Remote Schooling permissions

Friday, 13 November 2020 at 16:15

Dear {Salutation},

You will all be aware that we are now entering into a period of blended schooling, where we have activated our remote schooling policy. The remote school policy allows us to continue to support and educate all of our students both in our classrooms and at home via Microsoft Teams. To enable students to access lessons remotely and to be able to participate in their learning at all times we may require lessons to be recorded. This is important for safeguarding and deepens the learning experience for students as they are then able to use the recorded lesson in the future as a revision tool.

At present the video and photography permissions you have set for your child would not allow her to take part in this form of remote learning and we would like you to consider amending this with regards to **remote schooling only**. This can be done easily using the reply function below.

Please note that students would always be given the choice as to whether they use the camera or microphone functions and that data protection and privacy laws would still apply.

Kind regards,

Mrs J. Cross

Assistant Headteacher, Teaching and Learning

Reply

Please select below:

- ☐ I give permission for my child to take part in remote learning and for lessons to be recorded for internal educational use only.
- ☐ I do not give permission for my child to take part in remote learning where lessons may be recorded for internal educational use only.
