

The Government has announced (<https://www.parliament.uk/business/publications/written-questions-answers-statements/written-statement/Commons/2020-03-23/HCWS176/>) that it will not publish any school or college level educational performance data based on tests, assessments or exams for 2020. This update published here (<https://www.gov.uk/government/publications/coronavirus-covid-19-school-and-college-performance-measures>) clarifies what this means for the way school and college accountability will operate for 2019/20.

Chelmsford County High School for Girls (URN: 136412)

School performance summary 2018/2019

A glossary explaining terms used in this report is at the end of the printed version.

Key stage 4 headline measures

This is revised data for 2018/2019.

Progress 8

School

Pupils in Progress 8 cohort = 102

Pupils with adjusted scores = 0

Well above average 0.80

Confidence interval
0.55 to 1.05

Percentage entering English Baccalaureate

Number of pupils = 120

Percentage staying in education or entering employment after key stage 4

This is revised data for 2017/18 (2016/17 leavers)

Number of pupils = 120

Percentage achieving grade 5 or above in English and maths

Number of pupils = 120

Attainment 8

Number of pupils = 120

English Baccalaureate average point score

Number of pupils = 120

Key stage 4 disadvantaged

This is revised data for 2018/2019.

Progress 8 for disadvantaged pupils

Progress score for disadvantaged pupils	0.36
Confidence interval	-1.09 to 1.81
Number of disadvantaged pupils	3
Disadvantaged pupils with adjusted scores	0
National average for non-disadvantaged pupils	0.13
National average for disadvantaged pupils	Like-for-like -0.45

Prior attainment of disadvantaged pupils - 3 year trends

School characteristics

Basic characteristics trends

This is final data for 2018/2019 (January 2019 census data).

For a small number of schools there may be slight discrepancies between school characteristics data displayed in ASP and data in the IDSR. This is because the IDSR is based on the January school census but ASP data has incorporated some updates made after the January school census.

Up to Key stage 5 basic characteristics trends						
Breakdown	2017		2018		2019	
	School	National	School	National	School	National
Number on roll	874	950	925	961	967	978

Glossary

Key stage 4 headline measures

Progress 8

Progress score

This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2. This is based on results in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including sciences, computer science, history, geography and languages, and 3 other additional approved qualifications.

In a small number of cases, pupils can have extremely negative progress scores that disproportionately affect a school's progress score. To reduce the impact of these extreme scores, we set a limit on how negative a pupil's progress score can be when calculating the school average. This will normally apply to 1 or 2 pupils per school, if any.

Where a pupil's score is more negative than this minimum value, an adjusted score will replace the pupil's original progress score for the purpose of calculating a school's overall progress average.

For further information, see the [technical guidance](#).

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc/english-baccalaureate-ebacc>

<https://www.gov.uk/government/publications/key-stage-4-qualifications-discount-codes-and-point-scores>

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Confidence interval

It is difficult to say with certainty how much of the progress scores are down to the school (which may have scored higher with a different group of pupils) and how much is down to the pupils (for example some may have performed well at any school). The confidence intervals reflect this uncertainty. If the confidence intervals for 2 schools overlap, then we can't say for certain that the 2 progress scores for these schools are significantly different.

Generally speaking, the greater the number of pupils, the smaller the range of the confidence interval. For smaller schools, the confidence interval tends to be larger, since fewer pupils are included, and therefore the score will be more greatly impacted by performance of individual pupils.

A school is above average if its Progress 8 score is above 0 and the whole confidence interval is above 0. Similarly, a school is below average if its Progress 8 score is below 0 and the whole confidence interval is below 0.

More information on [statistical confidence](#).

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Percentage entering English Baccalaureate

The English Baccalaureate is not a test or qualification; it is a measure used to provide information about a particular range of qualifications. A pupil is considered to have 'entered' for the English Baccalaureate if they entered for qualifications in English, maths, sciences, a language and either history or geography.

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc>

Percentage staying in education or entering employment after key stage 4

This shows the percentage of pupils who either stayed in education or went into employment for at least 2 terms after finishing key stage 4 (after year 11, usually aged 16). This is for pupils who finished year 11 in 2017, which is the most recent data currently available. This figure covers any sustained education or employment destination.

We suppress destinations data where it may reveal the identity of individual pupils (marked as SUPP). In addition, any institution with fewer than 6 pupils in its cohort has had all of its data suppressed. This is because the data contains earnings and benefit information from other government departments (HMRC, DWP) and we currently do not have an agreed process for sharing it. We do not share data about individual pupils on Analyse school performance for the same reason. [Find out more](#).

Percentage achieving grade 5 or above in English and maths

This tells you the percentage of pupils who achieved grade 5 or above in the 2017 reformed English and maths GCSEs.

Reformed GCSEs are graded 1 (low) to 9 (high). Grade 5 in the new grading is a similar level of achievement to a high grade C or a low grade B in the old grading.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Attainment 8

Schools get a score based on how well pupils have performed in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including combined science (double award), the single sciences (biology, chemistry and physics), computer science, history, geography and languages, and 3 other additional approved qualifications.

English Baccalaureate average point score

The EBacc APS calculates a pupil's average point scores across the 5 pillars of the English Baccalaureate, allocating points to a pupil's best grades and dividing by 6 (the science grades count in 2 pillars, meaning total of 6 pillars) to create an average point score per pupil. This measure is an average across the subjects (i.e. we divide the total by 6) and so is on a different scale to Attainment 8 which we calculate by simply awarding points score across 8 qualifications (without dividing the total).

This measure is based on the better result of either English language or English literature when both subjects are taken, maths, the best 2 results from the single sciences (3 out of 4 must be taken), or results from the combined science, the better result from either geography or history and the best result in languages.

For more information about how we calculate the EBacc average point score [view the Secondary Accountability Measures guide](#).

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Local authority average

The data used for this comparator is all state-funded schools in this school's local authority.

National average

The data used for the national comparator is all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

Key stage 4 disadvantaged

Progress 8

Progress score

This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2. This is based on results in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including sciences, computer science, history, geography and languages, and 3 other additional approved qualifications.

In a small number of cases, pupils can have extremely negative progress scores that disproportionately affect a school's progress score. To reduce the impact of these extreme scores, we set a limit on how negative a pupil's progress score can be when calculating the school average. This will normally apply to 1 or 2 pupils per school, if any.

Where a pupil's score is more negative than this minimum value, an adjusted score will replace the pupil's original progress score for the purpose of calculating a school's overall progress average.

National average for non-disadvantaged pupils

The comparator for this row is the national average for non-disadvantaged pupils at all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

This is the default DfE national comparator.

Switch comparator

This button changes your view of disadvantaged pupils' data to a 'like-for-like' comparator based on the national average for disadvantaged pupils. This is different from the default DfE national comparator, which is the national average for non-disadvantaged pupils.

Like-for-like national average

The comparator for this row is the national average for disadvantaged pupils. This is different from the default DfE national comparator, which is the national average for non-disadvantaged (and for Ever 6 FSM and CLA it is non-Ever 6 FSM and non-CLA) pupils.

National average for disadvantaged pupils

The comparator for this row is the national average for disadvantaged children. This is different from the default DfE national comparator, which is the national average for non-disadvantaged children.

Prior attainment of disadvantaged pupils - 3 year trends

Changes to eligibility criteria for Free School Meals (FSM) under Universal Credit has implications for schools' disadvantaged pupil data (for further information see the [government response to eligibility for free school meals and the early years pupil premium under Universal Credit consultation](#)). Schools' disadvantaged cohorts vary year on year and it is important to consider prior attainment when comparing performance. Where a school's disadvantaged cohort's attainment has increased or decreased significantly between years, this may partly be explained by changes in the size and make-up of the cohort. Furthermore, please treat disadvantaged pupil data with caution when comparing school performance nationally, until Universal Credit roll-out is completed.

<https://www.gov.uk/government/consultations/eligibility-for-free-school-meals-and-the-early-years-pupil-premium-under-universal-credit>

<https://consult.education.gov.uk/healthy-pupil-unit/fsm/>

Percentage entering English Baccalaureate

The English Baccalaureate is not a test or qualification; it is a measure used to provide information about a particular range of qualifications. A pupil is considered to have 'entered' for the English Baccalaureate if they entered for qualifications in English, maths, sciences, a language and either history or geography.

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc>

Percentage of disadvantaged pupils staying in education or entering employment after key stage 4

This shows the percentage of pupils who either stayed in education or went into employment for at least 2 terms after finishing key stage 4 (after year 11, usually aged 16). This is for pupils who finished year 11 in 2017, which is the most recent data currently available. This figure covers any sustained education or employment destination.

We suppress destinations data where it may reveal the identity of individual pupils (marked as SUPP). In addition, any institution with fewer than 6 pupils in its cohort has had all of its data suppressed. This is because the data contains earnings and benefit information from other government departments (HMRC, DWP) and we currently do not have an agreed process for sharing it. We do not share data about individual pupils on Analyse school performance for the same reason. [Find out more](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Percentage achieving grade 5 or above in English and maths

This tells you the percentage of pupils who achieved grade 5 or above in the [2017 reformed English and maths GCSEs](#).

Reformed GCSEs are graded 1 (low) to 9 (high). Grade 5 in the new grading is a similar level of achievement to a high grade C or a low grade B in the old grading.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Attainment 8

Schools get a score based on how well pupils have performed in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including combined science (double award), the single sciences (biology, chemistry and physics), computer science, history, geography and languages, and 3 other additional approved qualifications.

English Baccalaureate average point score

The EBacc APS calculates a pupil's average point scores across the 5 pillars of the English Baccalaureate, allocating points to a pupil's best grades and dividing by 6 (the science grades count in 2 pillars, meaning a total of 6 pillars) to create an average point score per pupil. This measure is an average across the subjects (i.e. we divide the total by 6) and so is on a different scale to Attainment 8 which we calculate by simply awarding points score across 8 qualifications (without dividing the total).

This measure is based on the better result of either English language or English literature when both subjects are taken, maths, the best 2 results from the single sciences (3 out of 4 must be taken), or results from the combined science, the better result from either geography or history and the best result in languages.

For more information about how we calculate the EBacc average point score [view the Secondary Accountability Measures guide](#).

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Prior attainment

Low prior attainment

Pupils who achieved below level 4 in the key stage 2 tests.

Middle prior attainment

Pupils who achieved level 4 in the key stage 2 tests.

High prior attainment

Pupils who achieved above level 4 in the key stage 2 tests.

National average

The national comparator for 'All' is 'All pupils'. The national comparator for 'Dis' (Disadvantaged), is 'Non-disadvantaged pupils'.

Difference

The difference between the school's average and the national average. Figures are rounded, so there may be small discrepancies.

[Read more about difference.](#)

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

National average for non-disadvantaged pupils

The comparator for this row is the national average for non-disadvantaged pupils at all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

Key stage 4 results over 3 years

Progress 8

Progress score

This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2. This is based on results in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including sciences, computer science, history, geography and languages, and 3 other additional approved qualifications.

In a small number of cases, pupils can have extremely negative progress scores that disproportionately affect a school's progress score. To reduce the impact of these extreme scores, we set a limit on how negative a pupil's progress score can be when calculating the school average. This will normally apply to 1 or 2 pupils per school, if any.

Where a pupil's score is more negative than this minimum value, an adjusted score will replace the pupil's original progress score for the purpose of calculating a school's overall progress average.

For further information, see the [technical guidance](#).

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc/english-baccalaureate-ebacc>

<https://www.gov.uk/government/publications/key-stage-4-qualifications-discount-codes-and-point-scores>

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Change in methodology

We introduced a change in methodology in 2018 for calculating the Progress 8 score. This means that progress scores are not directly comparable from 2019 to 2018 or 2017.

Confidence interval

It is difficult to say with certainty how much of the progress scores are down to the school (which may have scored higher with a different group of pupils) and how much is down to the pupils (for example some may have performed well at any school). The confidence intervals reflect this uncertainty. If the confidence intervals for 2 schools overlap, then we can't say for certain that the 2 progress scores for these schools are significantly different.

Generally speaking, the greater the number of pupils, the smaller the range of the confidence interval. For smaller schools, the confidence interval tends to be larger, since fewer pupils are included, and therefore the score will be more greatly impacted by performance of individual pupils.

A school is above average if its Progress 8 score is above 0 and the whole confidence interval is above 0. Similarly, a school is below average if its Progress 8 score is below 0 and the whole confidence interval is below 0.

[More information on statistical confidence](#)

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Percentage entering English Baccalaureate

The English Baccalaureate is not a test or qualification; it is a measure used to provide information about a particular range of qualifications. A pupil is considered to have 'entered' for the English Baccalaureate if they entered for qualifications in English, maths, sciences, a language and either history or geography.

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc>

Percentage achieving grade 5/C and above in English and maths

This tells you the percentage of pupils who achieved grade 5 or above in the [2017 reformed English and maths GCSEs](#) or grade C or above in the 2016 English and maths GCSEs.

Reformed GCSEs are graded 1 (low) to 9 (high). Grade 5 in the new grading is a similar level of achievement to a high grade C or a low grade B in the old grading.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Attainment 8

Schools get a score based on how well pupils have performed in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including combined science (double award), the single sciences (biology, chemistry and physics), computer science, history, geography and languages, and 3 other additional approved qualifications.

Change in methodology [17-18]

Attainment 8 averages for 2017 and 2018 are not directly comparable. In 2018, the mix of unreformed and reformed GCSEs changed, with new GCSEs graded 9-1 introduced in 20 subjects. In 2017 the highest possible Attainment 8 point score for pupils taking GCSEs only was 87.5 whereas in 2018 it was 90.

Change in methodology [18-19]

The national average Attainment 8 score in 2019 for state-funded schools is 46.6 (46.5 in 2018). These figures are not directly comparable due to the change in the mix of reformed and unreformed GCSEs taken in 2019.

English Baccalaureate average point score

The EBacc APS calculates a pupil's average point scores across the 5 pillars of the English Baccalaureate, allocating points to a pupil's best grades and dividing by 6 (the science grades count in 2 pillars, meaning a total of 6 pillars) to create an average point score per pupil. This measure is an average across the subjects (i.e. we divide the total by 6) and so is on a different scale to Attainment 8 which we calculate by simply awarding points score across 8 qualifications (without dividing the total).

This measure is based on the better result of either English language or English literature when both subjects are taken, maths, the best 2 results from the single sciences (3 out of 4 must be taken), or results from the combined science, the better result from either geography or history and the best result in languages.

For more information about how we calculate the EBacc average point score [view the Secondary Accountability Measures guide](#).

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Local authority average

The data used for this comparator is all state-funded schools in this school's local authority.

National average

The data used for the national comparator is all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

Key stage 4 headline reports

Progress 8

Progress score

This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2. This is based on results in up to 8 qualifications, which include English, maths, 3 [English Baccalaureate qualifications](#) including sciences, computer science, history, geography and languages, and 3 other additional [approved qualifications](#).

In a small number of cases, pupils can have extremely negative progress scores that disproportionately affect a school's progress score. To reduce the impact of these extreme scores, we set a limit on how negative a pupil's progress score can be when calculating the school average. This will normally apply to 1 or 2 pupils per school, if any.

Where a pupil's score is more negative than this minimum value, an adjusted score will replace the pupil's original progress score for the purpose of calculating a school's overall progress average.

Cohort

Number of pupils who finished key stage 4 in the academic year 2016/17.

Education

Pupils who were in education throughout the first 2 terms, October 2017 to March 2018. [More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Apprenticeships

Pupils who started an apprenticeship at any point in the year and continued it for at least 6 months (2017 to 2018). [More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Employment

Pupils who did not stay in education or apprenticeships for 2 full terms but were in employment from October 2017 to March 2018. Pupils with a combination of education and employment making up 2 terms are also included. [More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Further education college or other FE provider

Includes pupils studying further education in a higher education institution. School sixth forms and sixth-form colleges are shown separately. [More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

School sixth form

Pupils in sustained education at a state-funded school sixth form.

Sixth form college

Pupils in sustained education at a sixth form college.

Other education destinations

Includes pupils staying for 2 terms in:

- higher education institutions (universities)
- special schools and special post-16 institutions
- alternative provision
- independent schools or colleges

Also includes pupils who moved between different types of education provider. [More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Not recorded in a sustained destination

Pupils finishing key stage 4 who did not stay in education or employment for at least 2 terms. They may have:

- been enrolled on a course or been in employment for part of this time, but not sustained this activity (for example, dropped out)
- have claimed out-of-work benefits in the year
- been reported as NEET (not in education, employment or training) by their local authority.

[More information](#).

<https://www.gov.uk/government/publications/destination-measures-for-key-stage-4-and-16-to-18-students>

Activity not captured

Pupils finishing key stage 4 who had no activity the following year captured in our data sources. Possible reasons for this could be that the young person was:

- not in education, employment or training (NEET)
 - living, working or studying overseas
 - attending a Scottish, Welsh or Northern Irish school or college
 - undertaking activity other than paid employment or study in the UK not successfully matched to a record in our data sources.

Attainment 8 overall

Schools get a score based on how well pupils have performed in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications in combined science (double award), the single sciences (biology, chemistry and physics), computer science, history, geography and languages, and 3 other additional approved qualifications.

Key stage 4 additional reports

Percentage achieving grade 4 or above in English and maths

This tells you the percentage of pupils who achieved grade 4 or above in the [2017 reformed English and maths GCSEs](https://www.gov.uk/education/gcse-changes-and-reforms).

Reformed GCSEs are graded 1 (low) to 9 (high). Grade 4 in the new grading is a similar level of achievement to a grade C in the old grading.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Percentage of pupils achieving EBacc at grade 5/C or above

This is the percentage of pupils who achieved the [English Baccalaureate](https://www.gov.uk/government/publications/english-baccalaureate-ebacc) (EBacc) at a grade 5 or above in English and maths, and at a grade 5/C or above in the following subject areas: sciences, a language, and either history or geography.

The English Baccalaureate is not a test or qualification; it is a measure used to provide information about a particular range of qualifications. A pupil is considered to have 'entered' for the English Baccalaureate if they entered for qualifications in English, maths, sciences, a language and either history or geography.

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc>

Percentage of cohort

These percentages are based on all key stage 4 pupils.

Percentage of entries

These percentages are based only on those pupils who entered for the qualification in these subjects (science, languages and humanities).

Percentage of pupils achieving EBacc at grade 4/C or above

This is the percentage of pupils who achieved the [English Baccalaureate](https://www.gov.uk/government/publications/english-baccalaureate-ebacc) (EBacc) at a grade 4 or above in English and maths, and at a grade 4/C or above in the following subject areas: sciences, a language, and either history or geography.

The English Baccalaureate is not a test or qualification; it is a measure used to provide information about a particular range of qualifications. A pupil is considered to have 'entered' for the English Baccalaureate if they entered for qualifications in English, maths, sciences, a language and either history or geography.

<https://www.gov.uk/government/publications/english-baccalaureate-ebacc>

Percentage of cohort

These percentages are based on all key stage 4 pupils.

Percentage of entries

These percentages are based only on those pupils who entered for the qualification in these subjects (science, languages and humanities).

English Baccalaureate by subject area, value added

This report shows how pupils' attainment at key stage 4 in English Baccalaureate subject groups compares to pupils across England with a similar starting point at the end of key stage 2. 'Value added' shows how well a pupil has progressed when compared with pupils with a similar test level.

Entries and points

This report shows the average number of qualifications entered and the average points per qualification.

Relative performance indicators by subject

Indicators in this report are calculated based on qualifications that count in School Performance Tables (SPT). These include level 3 qualifications, such as graded music, some vocational and technical qualifications at levels 1 and 2, as well as GCSEs and AS qualifications.

Qualifications taken privately have been included and are counted at the school the pupil was on roll at in the January census.

School average

This is the school's average point score in this subject. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in reformed GCSEs. Pupils with only one entry over all subjects are excluded. The entry with the highest point score is used for pupils with more than one entry in the same subject.

<https://www.gov.uk/education/gcse-changes-and-reforms>

School average in all other subjects

This is the school average of average point scores per pupil across all subjects excluding the subject of this row, for pupils with an entry in the subject of this row. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in the reformed GCSEs.

<https://www.gov.uk/education/gcse-changes-and-reforms>

School difference

This is the school's average point score for each subject minus its average point score for all of the other subjects. This allows us to compare performance in a particular subject against performance in all of the other subjects. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in reformed GCSEs.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Relative performance indicator

This is the 'School difference' minus the 'National difference' and shows how pupils' results in one subject compare with their average attainment in other subjects, against performance at a national level. This provides an indication of relative strengths and weaknesses of pupils' performance by subject.

National average

This is the national average point score in this subject. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in the reformed GCSEs. Pupils with only one entry over all subjects are excluded. The entry with the highest point score is used for pupils with more than one entry in the same subject.

<https://www.gov.uk/education/gcse-changes-and-reforms>

National average in all other subjects

This is the national average of average point scores per pupil across all subjects excluding the subject of this row, for pupils with an entry in the subject of this row. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in the reformed GCSEs.

<https://www.gov.uk/education/gcse-changes-and-reforms>

National difference

This is the difference between the average point score for each subject nationally minus the average point score for all of the other subjects. This allows us to compare performance in a particular subject against performance in all of the other subjects. Point scores are based on a scale which gives, for example, 9 points for a grade 9, 8 points for a grade 8 and 7 points for a grade 7 in the reformed GCSEs.

<https://www.gov.uk/education/gcse-changes-and-reforms>

Entries and attainment by subject

Indicators in this report are calculated based on qualifications that count in School Performance Tables (SPT). These include level 3 qualifications, such as graded music, some vocational and technical qualifications at levels 1 and 2, as well as GCSEs and AS qualifications.

Qualifications taken privately have been included and are counted at the school the pupil was on roll at in the January census.

National average

The data used for the national comparator is all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

Cumulative distribution

These fields show the percentage of pupils who achieved a certain number of points or above in each subject.

%achieving 7 points or above

Equivalent to an unreformed GCSE grade A or above.

%achieving 4 points or above

Equivalent to an unreformed GCSE grade C or above.

%achieving 1 point or above

Equivalent to an unreformed GCSE grade G or above.

%achieving 0 points

Equivalent to unclassified or failing grade.

Average point score

These figures indicate how well a school helps all of its pupils to meet their potential. Read more about average point scores.

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

All key stage 4 pupil group reports

National average

The data used for the national comparator is all state-funded schools in England. These include academies, free schools, local authority maintained schools, special schools, FE colleges with 14-16 provision, city technology colleges, UTCs and studio schools.

Male

The national comparator used in this row is the national average for male pupils.

Male (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

The national comparator used in this column is the national average for male pupils.

Female

The national comparator used in this row is the national average for female pupils.

Female (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

The national comparator used in this column is the national average for female pupils.

Disadvantaged (default)

Pupils may be defined as disadvantaged if:

- they are known to have been eligible for free school meals in the past 6 years, or
- they are recorded as having been looked after for at least one day, or
- they are recorded as having been adopted from care

The national comparator for this row is the national average for non-disadvantaged children.

Disadvantaged (like-for-like)

Pupils may be defined as disadvantaged if:

- they are known to have been eligible for free school meals in the past 6 years, or
- they are recorded as having been looked after for at least one day, or
- they are recorded as having been adopted from care

The comparator for this row is the national average for disadvantaged pupils. This is different to the default DfE national comparator.

Disadvantaged (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

Pupils may be defined as disadvantaged if:

- they are known to have been eligible for free school meals in the past 6 years, or
- they are recorded as having been looked after for at least one day, or
- they are recorded as having been adopted from care

The national comparator for this column is the national average for non-disadvantaged children.

Ever 6 FSM (default)

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The national comparator used in this row is the national average for children who are not eligible for free school meals.

Ever 6 FSM (like-for-like)

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The comparator for this row is the national average for Ever 6 FSM pupils. This is different to the default DfE national comparator.

Children looked after (default)

This means children looked after by local authority for at least 1 day during the year and aged 4-15 as at 31 August. It excludes children looked after under an agreed series of short placements and also those who were on remand/committed for trial or sentence and accommodated by the local authority.

Small CLA cohorts in most schools mean you should treat this data with caution, in particular when comparing against national benchmarks. Also, note that ASP uses a different definition for the CLA national average compared to other [DfE statistical publications](#) covering attainment of looked after children.

The national comparator used in this row is the national average for pupils in state-funded schools who have not been looked after for 1 day for the year in question. Note that 'not looked after children' in this case will include pupils who may have been looked after previously but were not looked after for at least 1 day in the year in question as well have pupils who have never been looked after.

<https://www.gov.uk/government/statistics/outcomes-for-children-looked-after-by-las-31-march-2018>

Children looked after (like-for-like)

This means children looked after by local authority for at least 1 day during the year and aged 4-15 as at 31 August. It excludes children looked after under an agreed series of short placements and also those who were on remand/committed for trial or sentence and accommodated by the local authority.

Small CLA cohorts in most schools mean you should treat this data with caution, in particular when comparing against national benchmarks. Also, note that ASP uses a different definition for the CLA national average compared to other [DfE statistical publications](#) covering attainment of looked after children.

The national comparator used in this row is the national average for pupils in state-funded schools who have been looked after for at least 1 day for the year in question. This is different to the default DfE national comparator.

<https://www.gov.uk/government/statistics/outcomes-for-children-looked-after-by-las-31-march-2018>

Other (default)

Non-disadvantaged children.

The national comparator used in this row is the national average for non-disadvantaged children.

Other (like-for-like)

Non-disadvantaged children.

In this like-for-like view of the data, the national comparator used in this row remains the national average for non-disadvantaged children

Other (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

Non-disadvantaged children.

The national comparator used in this column is the national average for non-disadvantaged children.

Switch comparator

This button changes your view of disadvantaged pupils' data and its component measures Ever 6 FSM and CLA to a 'like-for-like' comparator based on the national average for each cohort of pupils.

This is different from the default DfE national comparator, which is the national average for non-disadvantaged, non-Ever 6 FSM and non-CLA pupils.

Like-for-like national average

The comparators for disadvantaged pupils, Ever 6 FSM and CLA pupils are the national averages for disadvantaged pupils, Ever 6 FSM and CLA pupils.

This is different from the default DfE national comparator, which is the national average for non-disadvantaged, non-Ever 6 FSM and non-CLA.

The comparator for other pupils remains as non-disadvantaged pupils nationally.

SEN EHCP

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs an education, health and care plan (EHCP).

The national comparator used in this row is the national average for all pupils.

SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

The national comparator used in this row is the national average for all pupils.

SEN (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

Includes SEN pupils with an education, health and care plan and SEN support pupils.

The national comparator used in this column is the national average for all pupils.

No SEN

Pupils with no Special Educational Needs.

The national comparator used in this row is the national average for all pupils with no SEN.

No SEN (only for the 'Percentage of pupils staying in education or entering employment after key stage 4 by pupil group' report)

Pupils with no Special Educational Needs and those whose SEN provision could not be determined.

The national comparator used in this column is the national average for pupils with no SEN and those whose SEN provision could not be determined.

Non-mobile

Pupils who were on the school roll for the whole of years 10 and 11.

The national comparator used in this row is the national average for pupils on the school roll for the whole of years 10 and 11.

English first language

This refers to children who were initially exposed to English during early development and continue to be exposed to English in the home or in the community.

The national comparator used in this row is the national average for all pupils.

English additional language

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

The national comparator used in this row is the national average for all pupils.

Prior attainment

Low overall

Pupils who achieved below level 4 in the key stage 2 tests.

The school's performance for pupils with low prior attainment overall is compared with the national figure for low prior attainment overall.

Middle overall

Pupils who achieved level 4 in the key stage 2 tests.

The school's performance for pupils with middle prior attainment overall is compared with the national figure for middle prior attainment overall.

High overall

Pupils who achieved above level 4 in the key stage 2 tests.

The school's performance for pupils with high prior attainment overall is compared with the national figure for high prior attainment overall.

Reading low

Pupils who achieved below level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for low prior attainment in reading.

Reading middle

Pupils who achieved level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for middle prior attainment in reading.

Reading high

Pupils who achieved above level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for high prior attainment in reading.

Maths low

Pupils who achieved below level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for low prior attainment in maths.

Maths middle

Pupils who achieved level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for middle prior attainment in maths.

Maths high

Pupils who achieved above level 4 in the key stage 2 tests.

The national comparator used for this row is the national figure for high prior attainment in maths.

Absence

Absence

For schools which opened or closed part way through this period, their absence information will be based on a shorter period.

The national comparators shown are based on a breakdown of state-funded primary, state-funded secondary and special schools, in line with statistical releases on absence.

Read more about the methodology used for compiling absence statistics.

<https://www.gov.uk/government/publications/absence-statistics-guide>

National average

The national comparator used for primary schools is all state-funded mainstream primary schools in England. The national comparator used for secondary schools is all state-funded mainstream secondary schools in England. The national comparator for special schools used here is the national average for special schools. Included in these are academies, free schools and local authority maintained schools. Special schools also include non-maintained special schools.

Male

The national comparator used in this row is the national average for male pupils.

Female

The national comparator used in this row is the national average for female pupils.

Ever 6 FSM

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The national comparator used in this row is the national average for children who are eligible for free school meals.

Non-Ever 6 FSM

Pupils who were not eligible for free school meals in any of the previous 6 academic years.

The national comparator used in this row is the national average for children who are not eligible for free school meals.

SEN EHCP

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs an education, health and care plan (EHCP).

The national comparator used in this row is the national average for pupils with an EHCP.

SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

The national comparator used in this row is the national average for pupils with SEN support.

No SEN

Pupils with no Special Educational Needs.

The national comparator used in this row is the national average for pupils with no SEN.

English first language

This refers to children who were initially exposed to English during early development and continue to be exposed to English in the home or in the community.

The national comparator used in this row is the national average for pupils with English as their first language.

English additional language

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

The national comparator used in this row is the national average for pupils with English as an additional language.

Absence – 3 year trends

For schools which opened or closed part way through this period, their absence information will be based on a shorter period.

Read more about the methodology used for compiling absence statistics.

<https://www.gov.uk/government/publications/absence-statistics-guide>

National average

The national comparator used for primary schools is all state-funded mainstream primary schools in England. The national comparator used for secondary schools is all state-funded mainstream secondary schools in England. The national comparator for special schools used here is the national average for special schools. Included in these are academies, free schools and local authority maintained schools. Special schools also include non-maintained special schools.

Exclusions

Exclusions

For schools which opened or closed part way through this period, their exclusions information will be based on a shorter period.

The national comparators shown are based on a breakdown of state-funded primary, state-funded secondary and special schools, in line with statistical releases on exclusions.

Read more about the methodology used for compiling exclusion statistics.

<https://www.gov.uk/government/publications/exclusions-statistics-guide>

National average

The national comparator used for primary schools is all state-funded mainstream primary schools in England. The national comparator used for secondary schools is all state-funded mainstream secondary schools in England. The national comparator for special schools used here is the national average for special schools. Included in these are academies, free schools and local authority maintained schools. Special schools also include non-maintained special schools.

Male

The national comparator used in this row is the national average for male pupils.

Female

The national comparator used in this row is the national average for female pupils.

Ever 6 FSM

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The national comparator used in this row is the national average for children who are eligible for free school meals.

Non-Ever 6 FSM

Pupils who were not eligible for free school meals in any of the previous 6 academic years.

The national comparator used in this row is the national average for children who are not eligible for free school meals.

SEN EHCP

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs an education, health and care plan (EHCP).

The national comparator used in this row is the national average for pupils with EHCP.

SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

The national comparator used in this row is the national average for pupils with SEN support.

No SEN

Pupils with no Special Educational Needs.

The national comparator used in this row is the national average for pupils with no SEN.

English first language

This refers to children who were initially exposed to English during early development and continue to be exposed to English in the home or in the community.

The national comparator used in this row is the national average for pupils with English as their first language.

English additional language

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

The national comparator used in this row is the national average for pupils with English as an additional language.

Exclusions – 3 year trends

For schools which opened or closed part way through this period, their exclusions information will be based on a shorter period.

The national comparators shown are based on a breakdown of state-funded primary, state-funded secondary and special schools, in line with statistical releases on exclusions.

National average

The national comparator used for primary schools is all state-funded mainstream primary schools in England. The national comparator used for secondary schools is all state-funded mainstream secondary schools in England. The national comparator for special schools used here is the national average for special schools. Included in these are academies, free schools and local authority maintained schools. Special schools also include non-maintained special schools.

School characteristics

Basic characteristics trends

Up to Key stage 5 basic characteristics trends

National average

The national comparator used for primary schools is all state-funded mainstream primary schools in England. The national comparator used for secondary schools is all state-funded mainstream secondary schools in England. For all-through schools, the national comparator is all state-funded mainstream secondary schools in England. The national comparator used for special schools is all state-funded special schools in England. 2017 and 2018 figures are not available as this is a new measure. Included in these are academies, free schools, local authority maintained schools and special schools.

Male

The national comparator used in this row is the national average for male pupils.

Female

The national comparator used in this row is the national average for female pupils.

Ever 6 FSM

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The national comparator used in this row is the national average for children who are eligible for free school meals.

Minority ethnic groups

Pupils who are not white British.

The national comparator used in this row is the national average for non-white British pupils.

SEN EHCP

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs an education, health and care plan (EHCP).

The national comparator used in this row is the national average for pupils with SEN with EHCP.

SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

The national comparator used in this row is the national average for pupils with SEN support.

English additional language

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

The national comparator used in this row is the national average for pupils with English as an additional language.

Stability %

Stability is a measure of the percentage of students who were admitted to the school at the standard time of admission. The stability percentage is found by dividing pupils considered stable by all eligible pupils (pupils in years 1 to 11 and with current single or current main dual registration at the school).

The national comparator used in this row is the national average for stable pupils.

School deprivation indicator

Pupils living in an area of income deprived families.

The national comparator used in this row is the national average for pupils living in an area of income deprived families.

Basic characteristics by national curriculum year group

Ever 6 FSM

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

Minority ethnic groups

Pupils who are not white British.

English additional language

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

All SEN

Includes SEN pupils with an education, health and care plan and SEN support pupils.

SEN EHCP

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs an education, health and care plan (EHCP).

SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

Post-compulsory

The post-compulsory stage is key stage 5 (16-18 provision).

Pre-compulsory

The pre-compulsory stage is nursery/ reception (Early years foundation stage profile level).

Prior attainment of pupils by year group

Prior attainment data

This data shows the previous key stage prior attainment for each school year. For example, the year 11 row shows the prior attainment of pupils at key stage 2, when they were in year 6.

National average

The data used for the national comparator is all state-funded schools in England. These include academies, free schools, local authority maintained schools and special schools.

Key stage 2 prior attainment by year group (years 10 and 11)

High overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 2. These figures indicate how well a school helps all of its pupils to meet their potential. High prior attainers achieved an average point score of 30 or higher. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Middle overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 2. These figures indicate how well a school helps all of its pupils to meet their potential. Middle prior attainers achieved an average point score of 24 or higher and below 30. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Low overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 2. These figures indicate how well a school helps all of its pupils to meet their potential. Low prior attainers achieved an average point score of below 24. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Key stage 2 prior attainment by year group (years 7, 8 and 9)

Average scaled score

This score is an average for pupils in the school. The expected standard is a score of 100 or more. The higher standard is 110 or more. For a more detailed explanation, see Scaled scores at key stage 2.

<https://www.gov.uk/guidance/scaled-scores-at-key-stage-2>

Achieving the expected standard

Pupils are meeting the expected standard if they achieve a scaled score of 100 or more in their reading and maths tests, and their teacher assesses them as 'working at the expected standard' or better in writing. For a more detailed explanation, see Scaled scores at key stage 2.

<https://www.gov.uk/guidance/understanding-scaled-scores-at-key-stage-2>

Achieving the expected standard

Pupils are meeting the expected standard if their teacher assesses them as 'working at the expected standard' or better in writing.

Key stage 1 prior attainment by year group

High overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 1. These figures indicate how well a school helps all of its pupils to meet their potential. High prior attainers achieved an average point score of 18 or higher. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Middle overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 1. These figures indicate how well a school helps all of its pupils to meet their potential. Middle prior attainers achieved an average point score of 12 or higher and below 18. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Low overall

Prior attainment is the attainment level of a pupil at the end of the previous key stage - key stage 1. These figures indicate how well a school helps all of its pupils to meet their potential. Low prior attainers achieved an average point score of below 12. Read more about average point scores.

<https://www.gov.uk/government/publications/primary-school-accountability>

Key stage 1 reading prior attainment by year group

Achieved greater depth

The pupil achieved a greater depth of reading, compared to the standard.

Achieving the expected standard

The pupil achieved or exceeded the expected standard of reading.

Working towards

The pupil exceeded the pre-key stage 1 standard of reading and was working towards the key stage 1 standard.

Foundations

The pupil achieved the pre-key stage 1 standard of reading.

Below pre-key stage 1

The pupil did not achieve the pre-key stage 1 standard of reading.

Key stage 1 writing prior attainment by year group

Achieved greater depth

The pupil achieved a greater depth of writing, compared to the standard.

Achieving the expected standard

The pupil achieved or exceeded the expected standard of writing.

Working towards

The pupil exceeded the pre-key stage 1 standard of writing and was working towards the key stage 1 standard.

Foundations

The pupil achieved the pre-key stage 1 standard of writing.

Below pre-key stage 1

The pupil did not achieve the pre-key stage 1 standard of writing.

Key stage 1 maths prior attainment by year group

Achieved greater depth

The pupil achieved a greater depth of maths, compared to the standard.

Achieving the expected standard

The pupil achieved or exceeded the expected standard of maths.

Working towards

The pupil exceeded the pre-key stage 1 standard of maths and was working towards the key stage 1 standard.

Foundations

The pupil achieved the pre-key stage 1 standard of maths.

Below pre-key stage 1

The pupil did not achieve the pre-key stage 1 standard of maths.
