Recommendations	
Remove community/commercial rates to one single rate for all except the Swimming Pool - reason for this is that the pool is in high demand and also costs a lot to run due to aging facility. Lower rate only for local primary schools, and to support one hirer who offers a disabled swim session. Price freeze.	
Astro is now a much less desirable facility compared to other schools who have superior surfaces. Recommend flat fees at above prices to improve community use and retain existing users.
