**Overall** there is a slight decrease in TA percentages compared to TA1 November 2020, however, the scale of the increase is small and not significant. Chemistry results at this stage are looking more favourable than last academic year, as do results in Further Maths, Latin, Music, English, German, Geography and French. The increased cohort has made a notable difference in the total number of grades submitted, 602 compared to the previous year's 431.
