Please note: We have provided two sets of target grades. One from the Fisher Family Trust which uses external data to calculate a predicted A Level outcome; the other target grade is generated by teaching colleagues who use their internal data to predict an A Level end of course outcome.

The headline figure for TA1 outcomes across the cohort is similar to the previous year's TA1 outcome (2022: 86.5%; 2023: 86.3%). Positive TA outcomes are demonstrated in Economics, French, German, Government and Politics, Latin, History and Theatre Studies who all achieved headline figures of 100% A*-B. There is also a 11% increase in outcomes for Biology, when compared to TA1 data in 2022. Outcomes in Maths also show a 5% increase in comparison to 2022.
