

MINIBUS LEASE REQUEST

The School needs to place an order for a new minibus as we can only extend our current lease by one more year. Ford (our preferred option for reliability) have just reopened their order books after a year of closure and we would like to place an order now for July '25. The quotes we have are below, with the Ford option being the second best value for money but a higher mileage allowance and better reliability and would therefore like Governor permission to place the order. It is significantly higher than our current lease agreement, but we don't unfortunately have a choice:
